## PARTS AND ILLUSTRATION CATALOG

RELECTIVE OCT. 86

General Motors Corporation

52D

# **ATTENTION — PARTS MANAGER**

**OCTOBER, 1986**

**THIS CATALOG IS BEING ISSUED TO SUPPLY YOU WITH COMPLETE INFORMATION ON THE 1984-87 MILITARY VEHICLES, (SERIES D1, 3)**

**YOUR FEEDBACK AND SUGGESTIONS ARE REQUESTED TO ASSIST US IN PUBLISHING THE MOST COMPLETE AND COMPREHENSIVE CATALOGS POSSIBLE. PLEASE ADDRESS ANY CORRESPONDENCE CONCERNING THIS PUBLICATION TO THE ATTENTION OF THE ENGINEERING DEPARTMENT AND INCLUDE YOUR ADDRESS AND DEALER CODE TO ENSURE A TIMELY REPLY.**

**THIS PUBLICATION IS A PRODUCT OF THE ENGINEERING DEPARTMENT AND ALL DATA HERE-IN WAS DERIVED FROM THE LATEST ENGINEERING INFORMATION.**

**WAREHOUSING AND DISTRIBUTION  
DIVISION OF GENERAL MOTORS CORPORATION  
DRAYTON PLAINS, MICHIGAN 48020**

## **NEW SERVICE PARTS OCTOBER**

**This listing of New Service Parts for October Publications has been issued to aid dealer parts personnel in identifying new items and planning their service parts requirements.**

**Parts have been listed in group sequence as they appear in the catalog with complete model usage and description.**

**This listing of New Service Parts replaces the listings previously included in the front of each publication.**

**Parts listed in this section are new to this publication, not necessarily new to the system.**

**WAREHOUSING AND DISTRIBUTION  
DIVISION OF GENERAL MOTORS CORPORATION  
DRAYTON PLAINS, MICHIGAN 48020**

# 1984-87 LIGHT TRUCK PARTS BOOK for SERIES 10, 30 TRUCK CUCV COMMERCIAL UTILITY CARGO VEHICLE

**Reprinted in its Entirety  
EFFECTIVE OCTOBER, 1986**

All illustrations and specifications contained in this literature are based on the latest production information available at the time of publication approval. General Motors Corporation reserves the right to make changes at any time without notice in colors, materials, equipment, specifications and models, and also to discontinue models.

## IMPORTANT

Light Truck vehicles for 1984-87 contain many parts dimensioned in the metric system. These parts are very close in dimension to familiar customary measurements in the inch system. It is important that during any vehicle maintenance procedure, replacement fasteners have the same measurements as those removed, whether metric or customary. Mismatched or incorrect fasteners can result in vehicle damage or malfunction, or possible personal injury.

Fastener sizes denoted on illustrations may not reflect metric dimensions. However, since the same vehicle may be built with metric or customary fasteners, care should be exercised in selecting replacement part equivalent to the original fasteners in dimensions, strength and pitch of thread. Both metric and customary fasteners required for replacement are listed in the Warehousing and Distribution Division Standard Parts Catalog (89).

A special Warehousing and Distribution Division label, saying "Metric Fasteners Required" in red letters, will be used to identify service parts which require metric fasteners but replace parts which originally used inch fasteners. This label will enable dealers and over-the-counter customers to quickly recognize parts which have changed to metric fasteners.

Cushion Chart	Page 9-1C
Truck Seat Belt	Truck Seat Belt — 1 thru 2

Complete familiarity with the information contained on these pages as well as the general layout of the Parts Book will prove helpful in locating and ordering the desired parts. The Book is arranged in sections as follows:

Model Series Identification  
 Alphabetical Index  
 Chassis Parts Listing - groups 0.000 to 9.000 inclusive  
 Commercial Body Parts Listing - groups 16.000 to 17.999 inclusive  
 Numerical Index

The Group System of listing parts is used and briefly is as follows:

Main units of the vehical are identified by the Numeral preceding the Decimal, i.e.,

Engine .....	0.
Cooling and Oiling .....	1.
Electrical .....	2.
Fuel System .....	3.

Some Parts may be listed elsewhere than in its original or "prime" Group, and in such listings the "prime" Group is indicated in parentheses. This procedure is necessary as a part can have but one identifying Group Number for ordering or bin location. For example, under Group Number 3.751, Part Number 7020926 is listed as Carburetor Choke Valve Screw, and the "prime" Group (3.820) is shown in the description column.

For convenience, all parts added to a reprint will be indicated with a bullet (●) following the model year. This bullet will appear for one reprint only.

## READING TRUCK MODEL APPLICATION

The Truck Models included in this publication are listed as follows:

Military Models will be indicated with a "D".

For further clarification, see the Truck Series Identification Charts which follow the General Information Section of the catalog.

## 1984-87 TRUCK CATALOG FORMAT

The 1984-87 truck catalog format is written in a similar way to that of the passenger car catalog using model codes in place of body styles. RPO (regular production options) will also in most cases be called out in code w/description where needed. Refer to the RPO list for proper identification of RPO's.

For a full explanation on decoding the model code and wheelbase refer to the truck series identification chart.

The following is a list of all the body codes:

D-(03) = (cab 2 door)

D-(16) = (Blazer, Jimmy) 16 model is w/rem. h/top

When using the dimensions and other data shown in the Description Column the parts manager should be guided by the following:

1. "length overall" refers to the total length of a part measured over the longest dimension. An irregular shaped piece is measured over the longest dimension regardless of contours and bends.
2. "dev. length" refers to the total length of a part such as a tail pipe or gas pipe measured as though the part were straightened out. This measurement can be taken on formed pipes by using a string to follow the contours of the pipe and then measuring the length of string used.
3. "I.D." refers to inside diameter; "O.D." refers to outside diameter; "O.S." refers to oversize; "U.S." refers to undersize.

To locate the listing of a Part, determine the model vehicle and refer to the Book under the Group Number identifying it, which may be determined by using any of the following three methods:

1. Consult Alphabetical Index, at front of book, which lists Parts by noun and descriptive names and refers to the exact Group Number where all Parts of similar kind may be found. If Name of desired Part is not readily found in the Index, a correlated Part Name will suggest approximate location.
2. Consult Illustrations, on which Group Numbers, and Noun Name are shown, which will refer to the Part or Assembly wanted. On Illustrations where both left and right part numbers are listed, the first number will always designate left hand side.
3. Consult Numerical Index if a Part Number is known, and use its Group Number to locate a similar Part, or be directed to the approximate location of correlated Parts.

The column headed "No. Used" indicates the number of pieces required. The term "A.R." means "As Required."

If Body is not of General Motors manufacture place orders direct with the manufacturer whose name appears on the Body Name Plate.

## T5

On "D" Models, this identification sticker is attached to the inner surface of the glove compartment door or on the left front inner fender skirt.

Y.I.N.

## WHEEL BASE

SPECIAL EQUIPMENT (SE #)

MODEL SERIES IDENT.

WAREHOUSING AND DISTRIBUTION DIVISION OF GENERAL MOTORS CORPORATION—LT TRUCK—52D—  
REV. 10-86 5

## INTERIOR TRIM COMB.

The interior trim combination code is shown for reference purposes only. It should be used to determine the correct part number for trim items from the parts book, it should also be furnished when submitting part number inquiries. (Refer to Truck Interior Trim Chart).

## EXTERIOR PAINT

The exterior trim combination number is used as a reference when ordering paint. (Refer to Truck Exterior Paint Color Chart).

## OPTION NO. AND DESCRIPTION

The first alphabetic letter and the following two numeric digits indicates the Regular Production Option Number. This option code used in conjunction with the Regular Production Option list found in this publication will enable you to determine the type of equipment installed on the vehicle. Name of equipment in the Option number column will indicate standard equipment for that model.

## COPO #

All applicable copo #'s will be shown on the Service Parts Identification Plate in the same area as options. This number must be furnished when submitting part number inquiries.

## UNION CITY BODY PARTS

Union City Body Parts are not listed in this book. To assist in this area, catalogs and price lists are now available on a no-charge basis by contacting the Union City Body Company at the following address:

Service Parts Supervisor  
Union City Body Co., Inc.  
Drawer 190  
Union City, Indiana 47390

## OLSON BODY PARTS

Olson Body Parts are not listed in this book. To assist in this area, contact the Olson Body Plant in your area. The locations are listed below.

Catskills, New York  
Sturgis, Michigan

Sherman, Texas  
Tulare, California

## IDENTIFICATION PLATES

T7

A combination Vehicle Identification and Rating Plate is used on all 1984 light duty trucks. It is attached to the left-hand door pillar on most models.

1984 Models will have the plate illustrated below, which will also include Camper Loading CG Data, Tire Information, and State Certification Code for applicable models.

### 10-35 SERIES TRUCK VEHICLE IDENTIFICATION NUMBER

"D" trucks will display the VIN plate on the instrument panel and expose the ROSETTE-HEAD mounting rivets. In addition, the truck VIN plate will be comparable in design and attachment location to that of the passenger models.

The vehicle identification number consists of 17 alpha and numeric characters designating the vehicle division, chassis type, engine, series, model, model year, assembly plant, and assembly sequence number.

# 1984-87 TRUCK MANUFACTURING SOURCE TRANSMISSION STAMPING INFORMATION

Source stamping information for the 1984-87 Truck Transmission consists of five (5) characters, two (2) alpha, and three (3) numeric, as shown below:

## POSITION 1

### MANUFACTURING SOURCE CODE

The following alpha codes will be stamped in the first (1st) position, identifying the Manufacturing Source:

<u>CODE</u>	<u>MANUFACTURING SOURCE &amp; TYPE</u>
B	Parma — CBC
J	GM of Canada — CBC
K	Muncie — Four (4) Speed 70 mm Light Duty
N	Muncie — Four (4) Speed 117 mm Truck
R	Muncie — Four (4) Speed 76 mm Light Duty
S	Muncie — Three (3) Speed 76 mm Light Duty
Y	Toledo — CBC

## POSITION 2

### MODEL YEAR

The number "4" (four) will be stamped in the second (2nd) position for model year 1984.

## POSITION 3

### CALENDAR MONTH PRODUCED

The following alpha codes will be stamped in the third (3rd) position, identifying the calendar month produced:

<u>CODE</u>	<u>MONTH</u>
A	January
B	February
C	March
D	April
E	May
H	June
K	July
M	August
P	September
R	October
S	November
T	December

# 1984-87 TRUCK MANUFACTURING SOURCE TRANSMISSION STAMPING INFORMATION (Continued)

## POSITIONS 4 & 5

### DAY PRODUCED

Numeric numbers will be stamped in positions #4 & 5, to identify the day produced.

Example — 01 = First day produced.  
              10 = Tenth day produced

### EXAMPLE

1980 TRUCK  
CHARACTER

MANUFACTURING SOURCE STAMPING IDENTIFICATION					
POSITION	1	2	3	4	5
	N	4	H	O	5
MANUFACTURING SOURCE (MUNCIE 4 SPEED 117 mm)					
MODEL YEAR (1984)					
MONTH PRODUCED (JUNE)					
DAY PRODUCED (5TH DAY OF THE MONTH)					

### SOURCE DESIGNATION WILL BE LOCATED AS FOLLOWS:

3-Speed & 4-Speed (Light Duty Passenger)

Lower right left hand  
side of transmission,  
below cover.

4-Speed Truck

Rear face of transmission  
case, below retainer.

3-Speed Automatic

On left side of oil pan.

3-Speed Hydramatic

Stamped on plate, rear  
right hand side of  
transmission case.

**1984-87 TRUCK  
MANUFACTURING SOURCE  
TRANSMISSION STAMPING INFORMATION  
(Continued)**

**TYPE DESIGNATIONS WILL BE LOCATED AS FOLLOWS:**

All 3-Speed Manual — on top right hand side of transmission case.  
Truck 4-Speed — above power take off cover.  
All 3-Speed Automatic — on right side of transmission, above filler plug.  
Turbo-Hydramatic — on top right front.

**SERVICE SEQUENCING FOR SERVICE TRANSMISSIONS WILL BE AS FOLLOWS:**

PARMA	00001 TO 14999
TOLEDO	15000 TO 24999
MUNCIE	25000 TO 44999
HYDRAMATIC	00001 TO 99999

HYDRAMATIC TRANSMISSIONS WILL BE NUMBERED WITH THE LETTER "H".

# D TRUCK TRANSMISSION IDENTIFICATION INFORMATION

## "D" (LIGHT TRUCK)

1984	8633283	—	FV
1985	8655111	—	FV
1986	8655111	—	FV
1987	8655111	—	FV

# REAR AXLE PRODUCTION CODE

T26

## TRUCK CORPORATION REAR AXLE CODE IDENTIFICATION

All Corporation built rear axles are stamped with a prefix code designating the axle ratio and vehicle identification, axle source, build date and shift code.

EXAMPLE:

## REAR AXLE PRODUCTION CODE LOCATION

### 10 Series

The code is stamped on the front of the right axle tube, 3" to 5" outboard of the carrier.

### 30 Series

The code is stamped on the top of the right axle tube, 6" to 8" outboard of the carrier.

## TRUCK "DANA" REAR AXLE CODE IDENTIFICATION

Dana rear axles used in light-duty trucks will be stamped with the Dana part number and production code indicating the month, day, year, shift and production line on which the axles were assembled.

EXAMPLE:

The Dana part number and build date are stamped on the rear surface of the right hand axle tube. In addition, the three digit axle code appears on a strip of tape attached to the outboard end of the axle tube.

## D-TRUCK REAR AXLE IDENTIFICATION

MODEL	CODE	RATIO	SIZE	BRAKE
D1	BSJ	3.08	8.50	11.15 x 2.75 w/G80

## **ACCESSORY REFERENCE— PARTS LIST**

**The following alphabetical accessory listing has been incorporated into the catalog to further aid dealer parts personnel with an accessory reference parts list.**

This image shows a full page of white paper with horizontal grey ruling lines. At the top center, the word "NOTES" is printed in a bold, black, sans-serif font. The rest of the page is filled with evenly spaced horizontal lines, providing a template for writing.

## ACCESSORIES

---

### 21.240 HEATER PKG, Engine Block(Group 1.152)

85-87 D1, 3 (6.2J) ..... 996246 1 12.75 HEATER PKG, ENG BLOCK .....

This image shows a single page of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. At the top center, the word "NOTES" is printed in a bold, black, sans-serif font. Below the title, there are approximately 28 horizontal lines, providing space for writing notes.

This image shows a single page of white paper with horizontal blue or grey ruling lines. The word "NOTES" is printed at the top center in a bold, black, sans-serif font. Below the title, there are approximately 28 evenly spaced horizontal lines extending across the width of the page, providing space for writing.

This image shows a single page from a notebook or ledger. At the top center, the word "NOTES" is printed in a bold, black, sans-serif font. Below this header, the entire page is filled with evenly spaced, thin horizontal grey lines, providing a guide for writing. The paper itself is white, and there are no other markings, text, or illustrations present.

# LIGHT TRUCK ILLUSTRATION

## INTRODUCTION

This **ILLUSTRATION CATALOG** has been compiled to assist in the location and identification of service parts.

The illustrations herein may not always show the exact part required, however, for identification purposes the group number or noun name can be readily located from a view covering a typical illustration.

The layout of the information contained in this publication is such that the illustrations can be removed for combining with the Parts Listing Catalog Sections by groups. The "single" catalog concept can be maintained using this system, or the separate Illustration Catalog and Parts Listings Catalogs can be used.

During each calendar year complete reprints of the catalog are published as part of the Catalog Revision Service. New or revised illustrations are mailed to dealers subscribing to the revision service as they are scheduled.

All specifications and illustrations contained in this publication are based on the latest product information available at the time of printing. Warehousing and Distribution Division reserves the right to make changes at any time without notice in data, specifications, material and models.

Due to Engineering and or part number changes, all part number application herein should be verified by referring to the Parts Catalog.

# ILLUSTRATION CATALOG GROUP FORMAT

## GROUP LIGHT TRUCK ILLUSTRATION CONTENTS

0.000	ENGINES — ENGINE TRANSMISSION MOUNTING
1.000	RADIATOR & RELATED PARTS — OIL PRESS & THERMO SWITCHES
2.000	STARTER MOTORS — ALTERNATORS — ALTERNATOR MOUNTINGS — HORN PARTS — FRONT LAMPS — REAR LAMPS
3.000	FUEL SUPPLY SYSTEMS — ACCELERATOR CONTROLS — AIR CLEANER & EMISSION PARTS — FUEL INJECTION PUMP — EXHAUST SYSTEMS
4.000	AUTOMATIC TRANSMISSIONS — LINKAGE — TRANSFER CASES — BRAKE SYSTEMS — PARKING BRAKES — MASTER CYLINDER — HYDRAULIC BOOSTER — HYDRAULIC PUMP MOUNTING & LINES
5.000	FRONT DISC BRAKE — REAR DRUM BRAKE — REAR AXLES — LOCKING DIFFERENTIAL — PROP SHAFTS
6.000	FRONT AXLES — LOCKING HUBS — STEERING LINKAGE — STEERING SYSTEM — STEERING GEARS — STEERING COLUMN (EXPLODED) — STEERING PUMP — STEERING PUMP MOUNTINGS
7.000	FRAME COMPONENTS — FRONT SUSPENSION — REAR SUSPENSIONS — FRONT BUMPER — REAR BUMPER
8.000	FRONT END SHEET METAL — BASE HEATER SYSTEMS — HEATER COMPONENTS OR ASSEMBLIES
9.000	BODY MOUNTING — A. C. COMPRESSORS — A. C. COMPRESSOR MOUNTING — A. C. REFRIGERATION SYSTEM — INSTRUMENT PANEL CLUSTERS
16.000	WINDSHIELD WASHER, BLADE AND PUMP — WINDSHIELD GLASS, WEATHERSTRIP AND MOLDING — MIRRORS — INSTRUMENT PANELS — FRONT DOOR AND RELATED PARTS AND TRIM — BODY SHEET METAL — SEATS, BELTS AND MOUNTINGS — FLOOR INSULATORS, MAT, CARPETING AND SCUFF PLATES
17.000	END GATES AND REMOVABLE TOP — PICK-UP BOX ASM.

NOTE — THIS IS A GENERAL OUTLINE OF THE CURRENT ILLUSTRATION SEQUENCE.
